

November 17, 2023

Dear Owners and Tenants,

Re: Green Bin

As a follow up to our recent Newsletter, this is to inform you that the Green Bins have arrived!

We have received three large Green Bins from the city, and they will be located where we presently store the recycling bins. Only one bin will be available at a time, and exchanged with another one as it fills up.

We have also received from the city enough countertop containers and pamphlets for each and every unit. The pamphlets will guide us through this new program. We request that all green bin waste be placed in plastic or paper bags and then brought down to be disposed of. This will ensure no odour or pests. You can purchase bags specifically for the countertop container.

Our first green bin pick up will be the first week of December. You can start disposing of your green bin waste on **Monday, November 27, 2023**.

Countertop Containers

Starting Monday, November 20, 2023 please come see the concierge to pick up your individual countertop container. We have exactly 144 countertop containers, and we can only give one per unit so this will allow us to keep track as to which unit got one. For those already away for the winter, we will have your countertop container and your pamphlet ready for you upon your return.

Thank you for helping reduce our environmental footprint.

Kimberly Renwick

Property Manager
